Venue programme · 2027 season

# *An experience your couples won't find at any other venue.*

nuvis ● ON AIR

01

# *What Nuvis On Air is*

We set up a podcast corner at the venue. Our host interviews guests during the drinks reception, dinner and the party.

A few weeks later, the couple receives the edited episode, vertical clips and a private link to listen on Spotify or Apple Podcasts, just like any other podcast.

| Time needed | 6 h |
| Length of the celebration | 5 h |

*Couples never get to talk to everyone. We record what they can't hear.*

02

# *Why it works at your venue*

### It sets you apart on viewings

Couples compare very similar venues. A podcast corner in your garden is the image they remember on the way home.

### Content for your social media

After each wedding we share clips featuring your venue, with the couple's consent.

### Better reviews

Guest experience is one of couples' top priorities, and it shows in their reviews.

### No extra work for your team

We bring all the equipment, set up before guests arrive and coordinate with the photographer and DJ.

# *How the day works*

| | | |
|---|---|---|
| 17:45 | **Quiet set-up** | 45 minutes before guests arrive. |
| 18:30 | **On air** | During drinks, our host invites guests to the corner. |
| 21:00 | **After dinner** | The gentler segments: the grandparents' table, advice, a message for ten years from now. |
| 23:30 | **Last voices** | Once the party starts, friends take over the microphone. |
| +4 wks | **The episode** | The couple receives the episode, clips and private link. |
